However, he made some last-minute changes to the Healthy Start Coalition of Flagler & Volusia Community Health Nurse Agreement. Paragraph 5. Program Participation he modified 200% of the then applicable Federal Poverty Guidelines to 150%. Paragraph 6. Screening, added the last sentence, "To the extent that the Community Healthy Nurse determines that immediate assessment and treatment services must be provided to a potential Program Participant, Grantee may only invoice the Authority for such services if the individual eventually becomes a Health Card enrollee and the individual, within fifteen (15) business days of the immediate services, makes an initial appointment to begin the WVHA HealthCard enrollment process either through the prescreening services provided by Rising Against All Odds or the prescreening and final eligibility determination services provided by The House Next Door. Massey Wood Destroying Insects Service Agreement (attached)

Mr. Small addressed the Board as previously, the Board could not assess the value of signing the Massey wood destroying insects service agreement. Mr. Small spoke with the Manager at Massey, who explained that their normal charge if the building has dry wood infestation costs at least \$200 - \$250 per visit. Typically, that spot treatment would need to occur multiple times. The wood destroying insects service agreement includes those spot treatments for the initial cost of \$540.00 and annually at \$100.00. If an infestation occurred, it would require that the building be tented and that would cost roughly \$2,800.00-\$3,000.00. This agreement guarantees that Massey would come out an perform that spot treatment at no additional cost to the WVHA.

Motion 116 – 2021 Commissioner Coen motioned to approve the Massey Wood Destroying Insects Service Agreement. Commissioner Accardi seconded the motion. The motion passed by a 4-0-1 vote.

He assured the Board that patients do not go without medications and miCare has resources for those patients to receive medications locally. He updated the progress that they have made in securing proposals for repairing the fascia at the DeLand WVHA miCare Clinic.

Mr. Croft recommended that the Board go forward in approving the proposal as presented by Marshal B. Bone in repairing the fascia on the West Plymouth Avenue Clinic in the amount of \$5,360.00.

In closing, Mr. Croft reminded the Board that the WVHA miCare Clinics will display photos of the WVHA Board of Commissioners along with their contact information. He confirmed that he has acquired Chair Manning's photos and will get this process started. The photos that are needed would be two photos 8 & ½" by 11".

West Volusia Professional Center: Update

Good afternoon everyone.

We are approaching the end of this year and have addressed some muchneeded matters within the WVPC complex. Here is a brief update on the status of the following projects.

Well | Irrigation | Landscaping:

We have fixed the well, repaired the irrigation, and completed the new landscaping for the entire complex. We have some outstanding debt obligations that exceed our current cash-on-hand, so another capital raise is needed to get these two companies paid for in full.

We are working with our property management company to obtain the final accounting for outstanding obligations and will provide it to you once the final amount is determined.

Signage:

Dr. Wrable is coordinating with our new sign company and needs your company name and logo in 'vector format' this week.

Painting:

Paint colors have been chosen for the complex. I am meeting with the contractor tomorrow to go over the final details of the job to make sure our objectives are aligned and schedule when the work will begin.

If your office needs any wood repair, please complete that work now. We do not want to paint over rotten wood.

Note: This expense falls on the building owner directly and is not part of the common area's fiscal responsibility.

Roofing:

Dr. Rawji requires a new roof. We have discussed and approved a silver metal roof. Roofing expenses fall on the owner(s) of the building directly and are not part of the Common Area cost share.

Please keep in mind that if or when a new roof is needed, the roof <u>must</u> match the color and style of the 'Management Committees' chosen roof for each building. We will provide the roofing specifications by email to everyone so we can adhere to this requirement.

Note: If you need a new roof, don't hesitate to contact me directly, and we will be glad to get you a quote?

I hope this email finds you all well.

> Re: West Volusia Hospital Authority Statement of Position Concerning the Medicaid Match Allocation Process

Dear Ms. Butler:

Please accept this correspondence as the West Volusia Hospital Authority's statement of its position with respect to the Medicaid Match Allocation process, which we understand will be considered by the County Council during its meeting on November 16, 2021. We respectfully request that you include this statement in the packet distributed to Council members in advance of the meeting. We understand that you are including in the packet a statement and proposal from the Halifax Hospital Medical Center ("Halifax") concerning the Medicaid Match Allocation process.

1. Medicaid Responsibility - County Contributions Under Florida Law.

This law firm represents West Volusia Hospital Authority ("WVHA"). We were retained to assist the WVHA in evaluating its legal rights and obligations under Section 409.915, Florida Statutes, which is titled "County Contributions to Medicaid." Of particular relevance to the issues now before the County Council, Section 409.915(5), Fla. Stat., provides:

In any county in which a special taxing district or authority is located which benefits from the Medicaid program, the board of county commissioners may divide the county's financial responsibility for this purpose proportionately, and each such district or authority must furnish its share to the board of county commissioners in time for the board to comply with subsection (4). Any appeal of the proration made by the board of county commissioners must be made to the Department of Financial Services, which shall set the proportionate share for each party.

The statute authorizes a county to "divide the county's financial responsibility" to the State "proportionately" among each "special taxing district or authority" which "benefits from the

Medicaid Program." Initially, then, the county must determine whether each of the special taxing districts or authorities located within the county "benefits from the Medicaid program." If so, then the county may divide its financial responsibility for the Medicaid Match "proportionately" among "each such district or authority" that "benefits from the Medicaid program." If not, then the county may not impose a Medicaid Match Allocation on the particular special taxing district or authority.

Medicaid payments are made directly to hospitals and health care providers. Special taxing districts or authorities which own or operate hospitals thus benefit from the Medicaid program by receiving Medicaid payments. This is the plain and ordinary meaning of the phrase "benefits from." Therefore, "each such district or authority" may be required to pay a portion of the county's responsibility to the State. Conversely, a county may not require a taxing district or authority that does not meet this criterion to pay any portion of the county's responsibility.

WVHA does not meet this criterion – it does not own or operate any hospitals, and does not receive any Medicaid payments – and therefore Volusia County may not require WVHA to contribute a portion of the county's required payment to the State. This conclusion is not only consistent with the statute but also required by well-established Florida Supreme Court rules of statutory construction, which provide that "the interpretation of a statute begins with the plain meaning of the actual language the statute employs." Halifax Hosp. Med. Ctr. v. State of Florida, 278 So. 3d 545, 548 n.3 (Fla. 2019) (internal quotation omitted). Each word of a statute must be given its "plain and ordinary meaning, unless words are defined in the statute." Nehme v. Smithkline Beecham Clinical Labs., Inc., 863 So. 2d 201, 204 (Fla. 2003) (and cases cited therein). "When the statutory language is clear, legislative history cannot be used to alter the plain meaning of the statute." Halifax Hosp., 278 So. 3d at 548 n.3 (Fla. 2019) (quoting Rollins v. Pizzarelli, 761 So. 2d 294, 299 (Fla. 2000)).

Until last year, when WVHA's 20-year sale agreement with Advent Health terminated, it could be said that WVHA indirectly benefited from the Medicaid program through the Medicaid payments that were made to the Advent Health facilities formerly owned by WVHA. However, that agreement expired on September 30, 2020, and there no longer remains any basis for determining that WVHA "benefits from the Medicaid program" under the language of Section 409.515(5), Fla. Stat.

Some may contend that WVHA still "benefits from the Medicaid program" because some of its residents receive treatment as Medicaid patients. However, the statute *does not* say "...in which a special taxing district or authority is located *whose residents* benefit from the Medicaid program." The Florida Legislature *could have* written the statute in that manner, if that was the legislature's intent. Instead, the statute refers to whether "the special taxing district or authority" itself "benefits from the Medicaid program." Because WVHA does not meet the statutory criteria pursuant to Section 409.915(5), Fla. Stat., WVHA is not a district or authority which "benefits from the Medicaid program" and for this reason its "proportionate" Medicaid Match Allocation should be zero. See Exhibit 1.

2. A Zero Allocation to WVHA is Reasonable and Fair.

In Volusia County, Medicaid Revenue paid directly to hospitals owned or operated by Halifax and the Southeast Volusia Hospital District ("Southeast Volusia") amounts to a combined total of nearly \$300 million each year. See Exhibit 1. By contrast, WVHA does not own or operate any facilities which receive Medicaid payments. When Halifax and Southeast Volusia contribute their respective portions to Volusia County's Medicaid Match Allocation process, they are effectively paying back a small fraction (typically between 1% and 2%) of the Medicaid payments that they each receive. See Exhibit 2. Thus Halifax and Southeast Volusia's Medicaid Match Allocations are easily dwarfed by the Medicaid payments they each directly benefit from. By contrast, for WVHA to pay its Medicaid Match Allocation, WVHA must impose extra ad valorem taxes on West Volusia property owners. In recent years, WVHA's Medicaid Match Allocations have constituted between 12.67% and 15.29% of its total ad valorem tax revenue¹ – all without receiving any Medicaid revenues to offset this expense. This is not fair to West Volusia property owners, especially considering Halifax and Southeast Volusia each directly benefit from substantial Medicaid payments they are able to draw from to pay their Medicaid Match Allocations. See Exhibit 2.

Exhibit 2 clearly demonstrates how both Halifax and Southeast Volusia directly benefit from the Medicaid program. It is entirely reasonable – and consistent with the statute – to divide Volusia County's Medicaid Match Allocations only to those two taxing districts which directly receive Medicaid payments. The Medicaid revenue received – more than \$262 million by Halifax and \$30 million by Southeast Volusia in 2019, the most recent year for which data is available – easily covers that portion of the County's overall Medicaid responsibility that the County currently divides between all three taxing districts, about \$6 million per year.

WVHA currently bears an unfairly heavy burden to generate enough tax revenue to pay its Medicaid Match Allocation. This burden is in turn shouldered by property owners within the WVHA taxing district, who are subject to a relatively higher rate of taxation, first to pay for all of the services that WVHA funds for indigent residents, and second to also pay for a Medicaid Match Allocation without any offsetting Medicaid revenues. This is inequitable to the taxpayers residing in WVHA's taxing district. If the County Council were to adopt the change in methodology proposed by Halifax, this inequitable burden placed on WVHA's taxpayers would worsen.

¹ For Fiscal Year 2019-2020, WVHA's Medicaid Match Allocation was \$2,452,561, compared to total ad valorem tax revenue of \$19,350,000, a proportion of 12.67%. For Fiscal Year 2020-2021, WVHA's Medicaid Match Allocation was \$2,512,229, compared to total ad valorem tax revenue of \$16,431,158, a proportion of 15.29%. Under the current methodology – if not changed by the County Council – for Fiscal Year 2021-2022, WVHA's Medicaid Match Allocation will be an estimated \$2,359,000, compared to estimated ad valorem tax revenue of \$17,400,000, a proportion of 13.56%. See Exhibit 3 (WVHA's Final Budgets for FY 2019/20, 2020/21, and 2021/22).

3. Halifax's Proposal and New Methodology are Flawed.

Section 409.915(5), Fla. Stat., does not dictate to Florida's 67 counties how each county may "divice," or allocate, its Medicaid Match contribution "proportionately" among the county's qualified special taxing districts or authorities. Historically, for the last several years, Volusia County has allocated the proportionate shares among Southeast Volusia, Halifax, and WVHA based on actual Medicaid Usage (i.e., the dollar amount of Medicaid services rendered) determined by actual economic data from State Fiscal Year 2013/14, as follows:

Current Allocations:

Southeast Volusia	8.72%
Halifax	52.04%
WVHA	39.24%

Halifax is now proposing that Volusia County make a radical shift from applying actual Usage data to instead using Enrollment data, which is nothing more than a "head count" of Medicaid recipients in the zip codes applicable to each taxing district. The percentage allocations would change substantially under Halifax's proposal, as shown below:

Current Allocations:	•	Proposed by Halifax:
Southeast Volusia	8.72%	9.65%
Halifax	52.04%	42.97%
WVHA	39.24%	47.38%

If the County Council were to adopt Halifax's proposed methodology, the net impact to the Medicaid Match Allocations for each of the three taxing districts in FY 2021/22 would be as follows:

Southeast Volusia:	An Increase of about \$56,000, to \$583,000
Halifax:	A Decrease of about \$549,000, to \$2.599 million
WVHA.	An Increase of about \$493,000, to \$2,866 million

Halifax's proposed methodology only underscores the fundamental unfairness of this scenario to WVHA, whose proper allocation should be zero, not \$2.866 million.

To derive its new proposal, Halifax cherry-picked among the data that is publicly available from Florida's Agency for Health Care Administration ("AHCA"). For example, County staff was able to obtain information about the amounts paid for in-patient and out-patient Medicaid hospital

November 8, 2021 Page 5

bills for all zip codes in Volusia County during the fiscal years of 2018/19, 2019/20, and 2020/21. These statistics show the following, recent Usage data:

Recent Usage:

Southeast Volusia 9.38% Halifax 47.62% WVHA 43.00%

See Exhibit 4 (materials prepared by County staff). WVHA submits that this Usage data would provide for an allocation formula that is: (1) more consistent with Volusia County's historical, and current, practice of relying on Usage data, and (2) relatively more fair to each of the three taxing districts than relying on Enrollment data alone.

Halifax cannot justify relying on simple Enrollment data when actual Usage data is available, as reflected above. If the County Council is inclined to change the current methodology at all, the Council should apply the new Usage data, rather than adopt Halifax's new proposed methodology.

4. The Right Next Step for the County Council.

However, the time is ripe, and right, for Volusia County to update its Medicaid Match Allocation process in compliance with Section 409.915(5), Fla. Stat., and to reflect the actual, current financial circumstances of the three taxing districts in the county. Currently, only Halifax and Southeast Volusia own or operate hospitals which actually receive Medicaid payments; WVHA does not. WVHA and its taxpayers should not now be mandated to bear the extra tax burden imposed by the county's historical Medicaid Match Allocation methodology, which may have made sense until last year — or worse, bear the additional tax burden that would be imposed on WVHA's taxpayers if the Council were to adopt Halifax's new proposed methodology. Instead, the County Council should, in accordance with the statute, divide the proportionate share of the county's Medicaid responsibility to the State between the two taxing districts which directly benefit from receiving Medicaid payments.

If the County Council requires any additional information for its deliberations about these issues, please let me know.

Sincerely,

PHELPS DUNBAR LLP

John D. Mullen
